Entered as second-class matter December 22, 1912, at the post office at Bloomington, Indiana, under the Act of August 24, 1912. Published twelve times a year by Indiana University, from the University Office, Bloomington, Ind.

VOL. XXXII

SEPTEMBER, 1944

No. 9

## News from I.U. Campus

Another school year began August 30 with a surprising number of students; four out of five are girls. Veterans are beginning to show on the registered list; some under the rehabilitation program and some under the "G.I. Bill."—Almost a thousand men in uniform are still on the two campuses. Pre-medics, pre-dents, and some portion of the ASTP.—Of the new students 153 were valedictorians of their high school classes.—Many students are returning from industrial positions to complete their college work.

The Memorial Fund for Coach Hayes has passed the \$2,000 mark and contributions are coming in from former students and friends throughout the world.—The Indiana University Foundation has announced that five scholarships are available under the William Lowe Bryan Fund.—The major project of the next months for the Foundation will be additional scholarships. Gifts of war bonds as well as cash are solicited.

Over 1,500 graduates were added to the alumni list on September 1 when the School of Law absorbed the Indiana Law School, a fifty-year-old institution at Indianapolis. Classes will be continued at Indianapolis on a full-time basis of evening work. Nearly a hundred students are enrolled in the Law School this fall.

Gilberto Freyre, distinguished Brazilian teacher, will give the Patten lectures this fall. Dr. Freyre is also teaching a credit course in the department of sociology.—The Auditorium Series will present ten numbers during the winter. The range of attractions is from two symphonies through nationally-known soloists to a tap dancer.

The Alumni Office needs up-to-date addresses of men and women in service. Send a card to George Heighway, 301 Union Building.—Don Herold, of New York, was re-elected President of the Alumni Association and John S. Hastings, of Washington, Ind., was re-elected alumni member of the Board of Trustees.

An addition to the nurses' home on the Indianapolis campus has been made possible by the gift of \$40,000 from an anonymous donor. A grant of federal funds will complete the contract. Work will start at once.—Many overseas soldiers are sending unusual currency in payment of their alumni dues. It is welcome.

### \$1 for Alumni Magazine

A special rate of \$1 has been made to all in service for a year's subscription to the Alumni Magazine and membership in the Alumni Association. Send a buck to George F. Heighway, Alumni Secretary, Union Building, Bloomington, Indiana.

## PRO PATRIA

The names of 143 graduates and former students who have died in service appear on Indiana University's Roll of Honor.

## Indiana Football in '44

### The Schedule

September 16—Indiana, 72; Fort Knox, 0  
September 23—At Illinois  
September 30—At Michigan  
October 14—Nebraska at home (HOMECOMING)  
October 21—At Northwestern  
October 28—Iowa at home  
November 4—At Ohio State  
November 11—At Minnesota  
November 18—Pittsburgh at home  
November 25—At Purdue

\*\*\*

There's still plenty of work to be done before the opening game on September 16, but you can bet your month's pay right now that none of Indiana's ten 1944 gridiron foes are going to trample over Coach Bo McMillin's second straight "wartime" football team.

The current Hoosier roster lists 35 boys who have never set foot upon a college gridiron and who are required to make the huge jump from prep to college football in the space of a little more than two months. To usher them through that change is the job of McMillin and his capable staff of assistant coaches—Paul (Pooch) Harrell, backfield coach; Johnny Kovatch, ends and line; W. H. (Billy) Thom; and Gordon R. Fisher, newly-appointed head track coach.

But this task is no new one to McMillin. Last year he was forced to field a team, against six powerful Big Ten foes, that had only two lettermen on it—All-American End Pete Pihos and Captain and Center John Tavenner. The rest was strictly from scratch. The results are well known. McMillin's charges went through the season winning four, losing four, and tying two against some of the country's best teams, and earned the title of one of the country's best

(Continued on Page 4)

## The Servicemen's Readjustment Act of 1944

### "G. I. Bill of Rights"

#### Part VIII—Education

##### ELIGIBILITY

Any veteran of World War II with ninety (90) days or more of active military service.

##### BENEFITS

###### Time

One calendar year plus the time in active service.

###### Subsistence

Fifty (50) dollars per month if no dependents.  
Seventy-five (75) dollars per month if one or more dependents.

###### Tuition

Tuition and fees, books and supplies.

##### PLACE AND TYPE OF EDUCATION

Place: Any approved educational institution.

Type of course: Any field of student's choice.

(See pages 2 and 3 for details)

(Continued on Page 4)

# "G. I. BILL OF RIGHTS"

Prepared by Office of Veterans Affairs,  
Indiana University

Many questions have been asked about the educational and training benefits of ex-servicemen under the Readjustment Act of 1944 ("G. I. Bill of Rights"). Some of these questions are listed below and the best possible answers of the moment are given to them. From time to time changes may be made in certain phases through rulings concerning the Act. As new questions and new rulings come up the material will be revised accordingly.

Nothing in the following statements is binding upon any interpretation by the Veterans Administration.

1. What is the "G. I. Bill of Rights"?

It is the Servicemen's Readjustment Act of 1944.

2. What is the Servicemen's Readjustment Act of 1944?

It is a public law which sets forth various provisions and benefits for which those who served in the armed forces of the United States during the present war are eligible.

3. What part of the Act deals with education and training benefits for veterans?

Part VIII of Chapter IV deals with the education and training opportunities and benefits for servicemen of World War II. There are many other advantages to veterans under the bill, such as loans to establish business, to buy a home or a farm, unemployment insurance, etc. No attempt is made in this summary to discuss these other features.

4. Who is eligible for the educational and training benefits set forth in this section?

Any person who served in the active military or naval service on or after September 16, 1940, and prior to the termination of the present war, and who shall have been discharged or released therefrom under conditions other than dishonorable, and who shall have served ninety (90) days or more.

5. What if the serviceman had spent a period of time in an AST or Navy college training program?

If the AST or Navy college training program was a continuation of a civilian program and was pursued to completion, the period of time spent in such a program would not count toward computing a serviceman's period of active military or naval service under this part. Further specific interpretation may be made on this point later.

6. What if the serviceman spent a period of time as a cadet or midshipman at one of the service academies?

That period would not count either in determining his eligibility for educational or training benefits under this Act.

7. May a person with less than ninety days of active service be eligible under this Act?

Yes, but only if he has a service-incurred disability so determined by Veterans Administration.

8. What is meant by active military or naval service?

The time during which a person wears a service uniform, received pay, and is subject to military law.

9. May commissioned officers be considered for benefits under this section of the Act?

Yes, commissioned officers, as well as noncommissioned officers and enlisted men and women, may be considered for education and training and benefits under this Act.

10. Does the period of time spent in a reserve program count as active military service?

No. A reserve, on inactive status, is not entitled to pay or other financial benefits and is not presumed to be in active service during such time.

11. Does the period of furlough between induction and going into a service uniform count as active military service?

No. The serviceman is not considered to be in active military or naval service during such time.

12. To how much education or training is a person eligible under this Act entitled?

To one year plus the period of time he was in active service.

Examples: Mr. A, with ninety days of active service to his credit, would be eligible for one calendar year plus ninety days of education or training.

Mr. B, with eighteen months of active service to his credit, would be eligible for two full years and six months of education or training (i.e., thirty months).

13. What is the maximum period of training for which a person may be eligible?

Four (4) years; in no event shall the total period of education exceed that amount of time.

14. Does the age at which the applicant entered service have anything to do with the benefits?

Yes, it may have. The person who was twenty-five or under at the time of entry into active service and is eligible under the Act is deemed to have had his education or training interrupted. Such a person may receive a full calendar year of education plus the period of active service to his credit.

Example: Henry Jones entered service at twenty-two. He has one hundred days of active service to his credit. He would be eligible for one calendar year plus one hundred days of education or training.

15. Is the person who was over twenty-five years of age at the time of entry into active service eligible for benefits?

He is eligible. (a) He is eligible for a calendar year of a refresher or a retraining course. (b) If he can furnish proof that his education or training was impeded, delayed, interrupted, or interfered with by his entry into active service, he is eligible not only for a calendar year of education or training, but in addition for the period of time he served.

Examples: Mr. X, a lawyer, entered service at twenty-eight, and has ninety days of active service to his credit. He had completed his education for a law degree. He would be eligible to receive one full year of refresher or retraining at an approved school.

Mr. Y, a law student, was enrolled in a law school at the time he entered service. He was twenty-eight years old at the time and has ninety days of active service to his credit. His education was deemed to have been interrupted, and therefore Mr. Y is eligible for one full year plus ninety days of training at an approved school.

16. May a person who was under twenty-five at the time of entry into service take a refresher or retraining course?

Yes, that is entitled to. He may take a retraining course. He may not receive the Act for more than one year. He may, therefore, to take up where they were, continue them since he is entitled to for one calendar year for the period of service.

17. What is the maximum period of time allowed the veteran to receive a refresher or retraining course?

A period of one year or less, or a lesser time as may be determined by the course of instruction.

18. Has the serviceman a right to a refund of the education or training received during the present war?

No. The serviceman is not entitled to a refund of the education or training received during the present war. The education or training received during the present war is considered a benefit under the Act.

19. Is the applicant entitled to a refund of the education or training received during the present war?

Yes, with the following conditions: (1) that the institution is on the approved list, and (2) that the applicant is accepted as a student.

20. How can the applicant obtain a refund of the education or training received during the present war?

The best source of information is Veterans Administration.

21. Is Indiana University on the approved list of educational institutions under the Servicemen's Readjustment Act of 1944 ("G. I. Bill of Rights")?

Yes.

22. Is the applicant entitled to a refund of his course of education or training received during the present war?

Yes.

23. May a veteran receive a refund of the education or training received during the present war?

Yes, but only with the approval of the Administrator of the Veterans Administration.

24. May a veteran receive a refund of his high school education or training received during the present war?

Yes. He may receive a refund of his high school education or training within two years of the termination of the present war.

Example: John Smith, a high school graduate, completed half-year of college requirements, and received a refund of his additional education or training.

25. How much does the applicant receive directly to an approved school for retraining?

A subsistence allowance during the approved school. A person who takes education or training.

26. What if a person is dependent on the applicant?

During the approved school, the Government provides a subsistence allowance of \$75 a month. A person who has one or more dependents takes a full-time course or training.

27. May a veteran qualifying for pension re-  
ceive pension allowance while receiving  
the subsistence allowance provided un-  
der this Act?

No, a veteran under this Act may not  
receive both pension and subsistence al-  
lowance. He chooses pension or sub-  
sistence allowance, whichever is the larg-  
er, and is entitled to other benefits of  
tuition, fees, books, supplies, and equip-  
ment.

28. May a retired officer entitled to retire-  
ment pay and eligible under this Act  
receive subsistence allowance in addition  
to retirement pay?

No, he would not receive subsistence  
allowance in addition to retirement pay.  
He would, however, be entitled to the  
other benefits of tuition, fees, books,  
supplies, and equipment.

29. Does the Government pay any expenses  
besides the monthly subsistence benefits?

Yes, the Government provides tuition,  
customary fees, and necessary books and  
supplies up to an approved amount.  
These costs are paid directly to the  
institution the veteran attends and not  
to the veteran.

30. Is a veteran required to take a full-  
time program of education or training  
under this Act?

No, but the subsistence allowance will  
be determined by the Administrator if  
the veteran takes a part-time program.

31. Does the above interpretation regarding  
lesser subsistence allowance for a veter-  
an taking part-time work also apply to  
the person in a refresher or retraining  
program?

Yes.

32. May a veteran waive subsistence allow-  
ance provided by the Government?

Yes, but at the same time he may have  
tuition, customary fees, and necessary  
books and supplies paid by the Govern-  
ment through Veterans Administration.

33. May a veteran be removed from an ed-  
ucational or training program before the  
termination of the period for which he  
is eligible?

Yes, by the Administrator of Veterans  
Administration, if the conduct or pro-  
gress of such person is unsatisfactory  
according to the regularly prescribed  
standards and practices of the institu-  
tion.

34. How does a person proceed in applying  
for the educational benefits provided by  
the servicemen's Readjustment Act of  
1944 ("G. I. Bill of Rights")?

1. He should obtain and fill out, ac-  
cording to direction, Form 1950. (See  
question 35.)
2. He should attach a certified copy of  
his discharge (a photostatic copy will  
be acceptable).
3. He must sign the application in the  
presence of a notary public and have  
the application notarized.
4. He should indicate the educational or  
training institution he wishes to at-  
tend.
5. He should also indicate the date  
when he wishes such training or ed-  
ucation to begin.
6. He should have a statement that he  
will be accepted by the institution  
of his choice. This may be either  
on the form or separately.
7. He should send all the above ma-  
terial to the regional office of Vet-  
erans Administration having jurisdic-  
tion over the area in which is lo-  
cated the person's place of residence  
given at time of entry into the serv-  
ice or the place of residence as  
changed on his service record by  
action of the veteran.

#### NOTE:

All such students from Indiana (ex-  
cept those from Lake, Porter, and  
La Porte counties) planning to go  
to Indiana University should send  
their application either to (1) Vet-  
erans Administration, Indianapolis  
44, Indiana, or (2) the Director of  
the Office of Veterans Affairs, In-  
diana University, Bloomington, Indi-  
ana, who will forward it. Those  
from Lake, Porter, or La Porte coun-  
ties who plan to go to Indiana Uni-  
versity should send their applications  
to Hines Veterans Facility, Hines,  
Illinois.

35. Where may one obtain Form 1950?

Form 1950 may be obtained from (1)  
Veterans Administration, (2) approved  
educational institutions, or (3) service  
organizations in the community.

36. How does the applicant learn whether  
he has qualified for educational or train-  
ing benefits?

He is informed by an authorized state-  
ment from Veterans Administration.

37. When may the serviceman expect to  
find out whether his application is ap-  
proved?

If the applicant has his necessary papers  
and forms in order, has been accepted by  
an institution as a student, and has his  
case folder on file at Veterans Admin-  
istration in the area in which he ap-  
plies, his application may be approved  
within a short time.

Delays occur principally because of (1)  
errors in following procedure on the  
part of the applicant, and (2) the ne-  
cessity of transferring cases from the  
Veterans Administration of one area to  
another.

38. Who determines whether a person has  
had a service-incurred disability?

Veterans Administration only.

39. What if a serviceman knows he has a  
service-incurred disability by reason of  
the fact that he has been granted a  
pension?

If he has been given a pension rating of  
at least ten per cent. and has received no-  
tice that a vocational handicap exists,  
he is eligible to apply for the educational  
benefits under vocational rehabilitation  
and should apply under Public Law 16.  
Use Form 1900.

40. Is it to a serviceman's advantage to  
apply for the benefits of vocational re-  
habilitation, Public Law 16, over those  
of the Servicemen's Readjustment Act  
of 1944 ("G. I. Bill of Rights")?

Yes. The subsistence allowance is high-  
er under vocational rehabilitation. Tui-  
tion, necessary fees, books and supplies  
are also provided.

41. What application form is filed for the  
benefits of vocational rehabilitation?

Form 1900, but this form is filed only  
after Form 526 has been acted upon and  
a person has received notice that a vo-  
cational handicap exists.

42. Where may Form 1900 be obtained?

From Veterans Administration only.

43. What is the area served by the Veterans  
Administration in Indianapolis?

Address—Veterans Administration, Indi-  
anapolis 44, Indiana, for all of the State  
of Indiana, except Porter, Lake, and La  
Porte counties. These three are in area  
served by Hines Veterans Facility, Hines,  
Illinois.

44. What if a person does not know the  
address of the Veterans Administration  
in his area?

He should go to one of his community's  
service organizations: Red Cross, Ameri-  
can Legion, Disabled Veterans, etc.

(Continued on Next Page)

## (Football, Continued)

all-civilian teams. Boys like Bobby Hoernschemeyer, the remarkable freshman who last year led the nation's football players in total yardage gained, Jimmie Alderdice, a small but mighty fullback, and Frank Hoppe, the 155-pound end who performed like a veteran, proved to the nation's football prognosticators that freshmen can hold their own in collegiate competition.

Six lettermen, all of whom saw a lot of action in 1943, have retained their 4-F ratings since last November and have returned for another year of duty with the Grayin' Colonel.

J. C. Coffee, the sturdy Negro guard who earned a midwest reputation for breaking up plays last year, is back, along with John Cannady, starting quarterback and a consistent ground-gainer, Joe Kempf and Joe Sowinski, both regular tackles in 1943, Frank Ciolli, another letter-winning guard, and Bob Ravensberg, who started at a guard post last year but has been shifted to an end spot this season to bolster that weak position.

Also returning to help McMillin in his manpower troubles are five boys who were members of the 1943 reserve but did not win "I's." They are George Orfanos, a fullback who may see a lot more duty this year than last; Robert Taylor, halfback; Jack Wills and Tom Sfura, both centers; and Arthur Lehman, a tackle.

The biggest scramble among the 35 freshmen to date is the fight to see which of the 21 backfield candidates are going to land varsity positions. The large number of backs out for the 1944 practices is a big difference from last year's season, when Bo and Backfield Coach Paul Harrell could only count upon about six men to handle the ball-carrying duties.

Outstanding among the backfield candidates are Abe Addams, a six-foot, two-inch tailback who may match Hoernschemeyer's performance of 1943, of Louisville's Male high; George Sundheim, of LaGrange, Ill., a fullback; Harry Jagade, of River Grove, Ill., another fullback who is vying with Sundheim for the starting three-spot; Richard Deranek, South Bend, a right half; Mike Linko, of Whiting, and Ed McLean, of Indianapolis Tech., also wing-backs; Robert Miller, of Chicago's Taft high, a tailback; Mike Modak, Campbell, Ohio, a hustling quarterback; and Ben Raimondi, of Erasmus Hall high, Brooklyn, N. Y., another promising passing halfback.

In the line, standouts are Carl Nestor, outstanding guard, from East Chicago; John Roper, strapping tackle from Campbell, Ohio; Alton Bevens, another tackle, from Cleves, Ohio; Richard Frank, of Chicago, and Ted Kluszewski, of Argo, Ill., both ends; and Bob Harbison, guard, of Evansville. At center, the post vacated by Captain John Taverner's graduation, a spirited fight is raging to see who will get the starting call. Leading the candidates for the pivot position are George Parker, of Chicago's Amundsen high; Allan Horn, of Huntington; and Bernard Berger, of Indianapolis.

## ("G. I. Bill," Continued)

## 45. What educational opportunities are offered by Indiana University to veterans?

Opportunities in the various branches of Arts and Sciences, Business, Education, Music, Law, Medicine, Dentistry, Nursing, Social Service. Indiana University has campuses at Bloomington and Indianapolis, Extension Divisions at Indianapolis, Fort Wayne, South Bend, Calumet (Lake County: Hammond, Gary, and East Chicago), Falls City (Jeffersonville) and New Albany), and offers correspondence study courses in which full University credit may be obtained.

## 46. What services does Indiana University offer returning veterans?

Through its regular facilities and its Office of Veterans Affairs, Indiana University

1. Serves as a liaison between student veterans and governmental agencies dealing with veterans' matters;
2. Offers guidance and counseling service;
3. Fosters personal relations with veterans enrolled;
4. Administers special admission to the University and evaluates transfer of veterans' credits from (a) other institutions, (b) courses of the Armed Forces Institute, and (c) special training received in military service;
5. Endeavors to co-ordinate the program for returning veterans and provide for any special needs they may have;
6. Maintains a comprehensive program of education.

## 47. Where can answers to further questions be obtained?

From Wendell W. Wright, Director, Office of Veterans Affairs, Indiana University, Bloomington, Indiana. (Additional copies of these questions and answers may be obtained from the same office.)
